This cross-sectional view shows a central shaft (17) passing through a housing (12). The housing has a central bore (16a) that is wider than the shaft. A component (31) is located within the housing, and a component (32) is located within the central bore. The housing (12) has a flange (16) at the bottom. The shaft (17) has a shoulder (17a) that fits into the housing (12).
